

Completion Term    May: \_\_\_    Aug: \_\_\_    Dec: \_\_\_    Year: \_\_\_\_\_    ID#: C \_\_\_\_\_

Print Name Exactly as Diploma Should Read: \_\_\_\_\_

Mailing Address to Send Printed Diploma: \_\_\_\_\_

City: \_\_\_\_\_    State: \_\_\_\_\_    Apt. \_\_\_\_\_    Zip Code: \_\_\_\_\_

Phone: \_\_\_\_\_    Email: \_\_\_\_\_

Ceremony (Check One): Will Attend \_\_\_ or Will Not Attend \_\_\_

Will attend ceremony short credits (≤ 6 cr.): \_\_\_    Will transfer credits back from: \_\_\_\_\_

| Discipline                                           | Credit Hours | Course Title                              | Scheduled | Credits Earned |
|------------------------------------------------------|--------------|-------------------------------------------|-----------|----------------|
| Humanities<br>(3 Credits)                            | 3            | COM 101–Public Speaking                   |           |                |
| Computer Science<br>(9 credits)                      | 3            | CSC 225–Computer Hardware                 |           |                |
|                                                      | 3            | CSC 230–Introduction to Networking        |           |                |
|                                                      | 3            | CSC 240–Networking II                     |           |                |
| Electrical/Electronics<br>Technology<br>(14 Credits) | 4            | ETE 101–Electrical Circuits I             |           |                |
|                                                      | 4            | ETE 102–Electrical Circuits II            |           |                |
|                                                      | 3            | ETE 105–Digital Electronics I             |           |                |
|                                                      | 3            | ETE 202–Industrial Electricity            |           |                |
| Industrial/Commercial<br>Electrician<br>(19 Credits) | 6            | ICE 101–Residential Electrical and Wiring |           |                |
|                                                      | 2            | ICE 102–Electrical Blueprint Reading      |           |                |
|                                                      | 6            | ICE 201–Commercial Electrical and Wiring  |           |                |
|                                                      | 2            | ICE 202–Project Estimation                |           |                |
|                                                      | 3            | ICE 203–Alarms and Special Systems        |           |                |
| Math<br>(8 Credits)                                  | 4            | MAT 105–Technical Mathematics I           |           |                |
|                                                      | 4            | MAT 205–Technical Mathematics II          |           |                |
| Mechanical Technology<br>(8 Credits)                 | 2            | MEC 209–Industrial Health and Safety      |           |                |
|                                                      | 3            | MEC 217–Instrumentation                   |           |                |
|                                                      | 3            | MEC 222–Programmable Logic Controllers    |           |                |
| Total                                                | 61           |                                           |           |                |
